

# GREENFIELD COURSE DURBAN 20 -23 APRIL 2010

A workshop series in the sustainable design and construction of the built environment for built environment professionals and contractors.

**Meshfield** will be hosting a 3 day workshop exploring key dimensions essential to the sustainable design and construction of the built environment. The workshops :

- ☀ Have design at their core
- ☀ Focus on content that has immediate practical application for professionals and players in the built environment field - architects, urban designers, engineer's, planners, developer's...
- ☀ Be rich in case studies, both local and international
- ☀ Include appropriate input from a range of experts in the field
